

SCOPE

30+Years of Experience of providing
Simple solutions for difficult measurements®

- TEST & MEASUREMENT
- PROTECTION SOLUTIONS

WE ARE HIRING !

SCOPE started in 1988 with the intent of designing portable test and measuring instruments to ensure the performance of equipment used in electrical substations. We have realized this vision and SCOPE is now one of the leading companies in the power sector catering to over 30 countries across 5 continents.

For more than 30 years our principles had kept us driving: H – Honesty, D – Discipline, I – Integrity. SCOPE from its initial days has always believed in “Make In India” & therefore set up its R&D to provide “Simple Solutions for Difficult Measurements”.

We continue to pioneer through the process of continuous learning and improvement and we owe our success to the confidence with which our customers approach us for the highest quality solutions.

We only work with high quality instruments, which you trust – at the right price. To ensure this we have a “State of the Art” factory, an independent R&D and a dedicated technical service & calibration centre located in Pune. For quick response and complete customer satisfaction, our corporate office is headquartered in Mumbai and regional sales offices are situated at Delhi, Chennai, Kolkata, Jaipur and Guwahati.

When you need simple solutions for difficult measurements®, you can rely on the ingenuity of SCOPE.

One-stop solution provider for:

- Test & Measurement Instruments
- On-line Monitoring and Control Switching Devices
- Control Relay & Protection Systems
- Substation Automation
