Geosolutions for a Growing World

Strata Geosystems is a market leader in the geosynthetic segment for soil reinforcement solutions in India and across the globe. It was established in 2004, with a partnership with Strata Systems Inc., USA - a two decade veteran in geosynthetics.

Strata provides end-to-end solutions for soil reinforcement challenges including supply, design, and construction with our world renowned StrataGrid™ (geogrid) and StrataWeb® (geocells).

We are renowned for our quality, durability and cost effectiveness and manufacture conforming to strict international quality standards. Our committed team of experienced design engineers and project implementation specialists ensure timely and accurate installation.

Our vision is to continue leading the industry with superior quality products and technically creative solutions that are cost-effective, time-saving, and long-lasting. Our manufacturing plants are ISO certified and our products have the CE mark. In addition, all testing is conducted in GAI-LAP accredited labs across the U.S., U.K., and India. We are also a proud member of the International Geotechnical Society (IGS) promoting advancements in geosynthetics.

We are hiring for the position of "Graduate Engineer Trainee" where the selected candidates have to work in our project department in different construction sites (across India / away from cities). Strata is providing end to end Geotechnical solutions to leading Infrastructure Developers of National Highways with currently 35 projects going on across India.

Responsibilities:

- Construction of reinforced soil walls with precast panels or segmental blocks
- Casting and erection of RE Panels and blocks
- Laying of Geogrids
- Allocate responsibilities & monitor work of team members on daily basis
- Decide deadlines & sequence of finishing units as per input from sales
- Ensure safety in the workplace
- Day to day supervision and monitoring quality and progress
- Ensuring all works are carried out in accordance with the design specifications & Technical standards
- Status and Periodic report, monthly project progress report to RE and team lead

Number of vacancies: Limited (Strictly depends on the quality of the candidates fulfilling our recruitment parameters)
